STAR is a luxury transportation service provider that offers customized packages to meet your specific needs, allowing you to seamlessly coordinate schedules and itineraries. We even offer services included in the sale price, such as refreshing drinks on board or decorations matching the wedding theme, adding an extra dimension to your experience.

It may also be worth considering separate transportation for family members and honored guests, ensuring everyone arrives on time and in comfort. For outdoor weddings or those in remote locations, a shuttle service can be a convenient and stylish solution.

Ultimately, the choice of wedding transportation not only contributes to the logistics of the day, but also embodies the style and elegance you desire for your celebration. It's a beautiful way to begin your new adventure together, with a touch of refinement and care.

Our rates start at €100/hour for hire
